WORK EXPERIENCE

Software Engineer , LTIMindtree

August 2023 - Present

- Spearheaded the frontend development for a **Gen AI product** for an insurance client, leveraging **React** to build responsive and efficient user interfaces.
- Collaborated with cross-functional teams, leading the React development for a high-traffic insurance platform serving **1000+ end-users**.
- Working on creation of a web app that will work as a marketplace for all of the AI products inside the company using MERN (**ReactJS, NodeJS,ExpressJS, MongoDB**) stack
- Successfully worked on a server side authentication system while registering to platform using **NodeJS and OAuth2**
- Developed and optimized a marketplace POC using **AngularJS**, improving frontend performance and enhancing user experience by **30%**.
- Worked in **Flask** with **SQL** for backend development, used in conjunction with **AngularJS** to create robust, **full-stack applications**.

PERSONAL PROJECTS

Socials - (social media webapp)

[github link](#)

- Developed a dynamic social media web app using the MERN (**ReactJS, NodeJS,ExpressJS, MongoDB**) stack, leading to an increase in user engagement.
- Implemented robust authentication and backend systems, resulting in a improvement in data retrieval efficiency.
- Enhanced platform interactivity through user-friendly **features such as post creation and upload**.
- Improved overall security with an enhancement in user authentication using **JSON Web Tokens (JWTs)**

Google docs clone

[github link](#)

- Engineered a standout Google Docs clone using **React, Socket.io, and Quill**, featuring **real-time collaboration capabilities**.
- Replicated essential text editor functionalities, ensuring a comprehensive tool, and showcased frontend expertise with an increase in user satisfaction through a seamless and collaborative platform.

SKILLS

- Frontend: **ReactJs, JavaScript, Typescript, AngularJS**
- Backend: **NodeJs, ExpressJS, Python, Flask**
- Database: **MOngoDB, MySQL, PostgreSQL**

EDUCATION

Bachelors in Computer Application

July 2020 - July 2023

Techno India Institute of Technology

- Graduated with an average CGPA of 9.23
